ASHRAE LINK is published by the ASHRAE Hong Kong Chapter. Statements made in this publication are not expressions of the Society or of the Chapter, and may not be reproduced without special permission of the Chapter. The newsletter is accepting letters to the editor and article submission on topics of interest to the members of the Chapter. Materials should be sent to us by post or by e-mail

Ms Eagle Mo
President Of ASHRAE
Hong Kong Chapter
2010-2011

OUR FIRST CHAIRLADY

in ASHRAE Hong Kong Chapter

Message from the President

First of all, I would like to thank all of you. I am extremely delighted and honorable to be elected and appointed as the Incoming President of ASHRAE Hong Kong Chapter for the year term from 2010 to 2011, and my duty as president will be commenced on 1 July 2010.

I would like to take this opportunity to thank all the support from Governors, the Officers, all Committee Chairs and members this year for your cooperation and Contribution. Without your support and effort, our Chapter would not be successful as much as we are. I hope all of you will continue to support the Chapter and actively participate in our functions.

In fact, it is my great honor to present the Incoming Presidential Speech and share with you some of our plans of the activities and tasks in my coming year term 2010 - 2011.

In my coming Presidential term, I have identified several major issues or areas for further development:

1) Membership Promotion

Members are the backbone of ASHRAE. We'll find the right way to recruit more new members as to increase ASHRAE group.

2) Student Activities

Students are the future of our Society and the Chapter. There is also a decreasing trend of membership of students in these few years. The Chapter will carry out more "Orientation Programme" for new students and "Career Talk" for the final year students. A subsidy will be provided to final year students when they change the membership from student member to graduate member. The Chapter will offer more opportunities for exposure of students, e.g. CRC student trip, sponsorship for student helpers of Mainland - Hong Kong Joint Symposium, etc. so that students not only could learn something, but also have fun through the participation in voluntary works.

3) Young Members

Youngsters are the future of our societies. As to sustain our growth, we would spend more time to our young members. We will encourage young member committee to held more activities for serving our society as well as equipped them with technical skill and knowledge.

4) Professional Trainings

As you know, there are many professional certification programs offered by ASHRAE Headquarters in USA. We have already set up technical working group to study the details and hope these courses could be implemented in Hong Kong. We believed these training programs not only can enhance the reputation and status of ASHRAE, but also increase our income for the local chapter.

Our times ahead in ASHRAE Hong Kong Chapter will be excited and busy as we will continue all those regular activities such as symposiums, membership night, seminars, student chapters & programs, china liaison, government & institutions liaison, annual dinner, workshops, retreat, sport competitions and technical programs & visits, etc, all these activities will be well planned and implemented.

Before the end of my speech, I would like to give special thanks to all immediate past officers, committee chairs and members who will continue to support us until the end of the smooth transition to the incoming committee chairs and members. I would like to make thanks in advance to all incoming committee chairs and members.

Two lady Presidents: Eagle Mo and Lynn G. Bellenger
(ASHRAE Hong Kong Chapter) (ASHRAE Headquarters)

FIRST HISTORICAL COMMITTEE PUBLICATION - INTERVIEW WITH MR WK PAU

Historical Committee of ASHRAE Hong Kong Chapter 2010-11

Chair: Mr S L Li

Honorable Advisory Members
(in alphabetic order):

Dr Roger Chu, Mr Alan Lam, Dr Philip Yu, Mr. Philip Pih

We are very pleased to have our first interview conducted in honor with one of the volunteer veterans, W K Pau, and made it as our first Historical Committee's publication at this issue of Newsletter of ASHRAE Hong Kong Chapter. We would like to extend our sincere gratitude to Pau for his valuable time for making this interview successful.

From Left: Mr S L Li , Mr WK Pau, Dr Roger Chu

INTERVIEW by Mr S L Li

About WK Pau: Pau joined ASHRAE in 1989 and was the President of Hong Kong Chapter 1997-98. He also served as the Delegate, Alternate and Alternate Reserve of Region XIII's Nominating Committee for 6 years. Pau is the recipient of ASHRAE Regional Service Award and Chapter Service Award. He is currently the Governor of the Chapter and the General Chair of Chapters Regional Conference to be held in Hong Kong in 2011. Pau is the E&M Project Manager of a well-known property developer and being involved in various prestigious projects in Hong Kong and Mainland China.

1. What are the main motives behind for you to spend so much of your volunteer hours into ASHRAE especially in Hong Kong Chapter and Region XIII in the present as well as in the past?

Pau: I remember when I joined the first ASHRAE BoG meeting at HKIE Headquarters in 1994 in which I felt very impressive with the spirit of the ASHRAE team. Many our past presidents, like Dr. Edwin Tao, Mr. C.O. Synn, Mr. Vincent Tse, Dr. Roger Chu, Professor Daniel Chan, Mr. W K Wong, Mr. Francis Pang and Dr. Philip Yu were all there. Although they were busy enough in their daily work, however, they were still fully committed to the voluntary service of ASHRAE Hong Kong Chapter as well as the International Committee. I can never forget how these senior members giving training, guidance and support to the next generation in developing our growth with ASHRAE.

I believe many members still remember that Dr. Edwin Tao had been very supportive to our committee meetings, ASHRAE Nights and AGMs etc although he got physical problem unfortunately.

In addition to those mentors' support and encouragement, another key motive to me is a group of teammates. We have been enjoying the fun in facing various challenges and success by consensus and teamwork in Chapter and Regional levels.

2. What are your personal insights and perspectives about the development of HVAC&R in Region XIII by large?

Pau: You may agree with that HVAC&R is no longer a technical term to describe system or human comfort, but a boarder perspective on energy conservation and environmental sustainability. In many codes or guidelines for design and assessment of green or energy saving buildings in the world and Hong Kong, ASHRAE's Standards are referred widely. This remarks the increasingly importance of the HVAC&R's role locally and internationally. ASHRAE offers a common platform from Society, Regional to Chapter level for members to share their valuable knowledge and experience through DL talks, conferences, journals, training and seminars. By enjoying the benefits offered exclusively to our members, we can apply the knowledge and technologies into our daily design, operating & maintenance, energy retrofit of buildings and systems to enhance the energy efficiency and social adaptability of our living and working environment.

Personally, I believe that it would be value-added to our competitive edge if we, as the practitioners of the HVAC&R industry, can continue uplifting our technical know-how and keeping our mind open to new and innovative ideas.

3. Having involved in ASHRAE and the building industry for so many years, what you would like to share with our young members?

Pau: It is so encouraging to see more and more well educated young engineers joining the industry. On the contrary, the market is becoming competitive giving various factors. I would encourage the young members must be well equipped themselves not only by having good academic background in engineering subjects, they have to strengthen their interpersonal skill, acquire more updated intelligence outside textbooks by joining more technical visits and talks, gaining practical experience and contribute more to the society by involving the volunteer's work of different learning society or professional organizations to broader their exposures.

COMING SOON

The First Book Published in the Chapter's 25-year History

Acknowledgement

Not only COOL Hong Kong being the first book... yes, a book, not magazine, nor anniversary booklet for 25th... published in the Chapter's history, the publication process by itself is historical too. It is a true product of many kind-hearted members' contributions and inputs since 2007 when the idea was first conceived. I feel honor working with them, overcoming difficulties, and now coming to its launch very soon!

May I take this opportunity to thank all members and friends of ASHRAE made contributions to the Book? (specific names please refer to the Acknowledgement page in the Book) As a member of Hong Kong Chapter, may I invite every one of you to "own" this book? This sense of ownership is not only to physically have it on your bookshelf but to introduce it to all your friends, both engineers and non-engineers because the Book is so written to minimize its technicality and yet to keep its original flavor of documenting the HVAC&R development in Hong Kong

LIAONING (DALIAN) – HONG KONG JOINT SYMPOSIUM 2010

“Low Carbon Building Technology: Opportunities & Challenges”

The symposium was held successfully at “大連富麗華南山花園酒店” Dalian on 2 and 3 July 2010. The symposium was jointly organized by American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc. Hong Kong Chapter, The Chartered Institution of Building Services Engineers Hong Kong Branch, The Hong Kong Institution of Engineers Building Services Division, and our mainland partners, including 大連市制冷學會空調熱泵專業委員會, 大連市制冷學會專家學術委員會 and 大連市建築設計研究院有限公司. The symposium was also co-organised by Department of Building Services Engineering (PolyU) and 大連理工大學建設工程學部土木工程學院.

The theme of the symposium was “Low Carbon Building Technology: Opportunities & Challenges”. “低碳建築技術 – 機遇與挑戰”. A total of 24 papers were published in the proceedings. 18 papers, 9 from Hong Kong and 9 from Dalian, were selected for presentation during the symposium. 16 papers were presented in Mandarin and 1 paper was presented in English.

LIAONING (DALIAN) – HONG KONG JOINT SYMPOSIUM 2010 (CON'T)

There were over 120 participants including more than 60 Hong Kong participants and about 60 from the Mainland. Opening and welcome speech were addressed by the Advisor of the Symposium – 吴元炜, Representative of Hong Kong Co-organizer – Ir Eagle Mo and the Representative of Dalian Co-organizers 盖大有. It was followed by presentation of Souvenirs for each Hong Kong and Dalian Organizers and Advisors.

After the opening ceremony, the symposium was continued by 5 paper presentation sessions and 1 session of the introduction of professional institutions. In each paper presentation session, 3 to 4 speakers presented their papers then followed by 20 minutes discussion. Speakers and audiences expressed their sincere in experience sharing by actively raising questions during the discussion session. It revealed that the symposium has achieved its goal by exchanging knowledge and information between Dalian and Hong Kong professionals. Souvenirs were presented to speakers at the end of each session by the session chairman in order to express our appreciation to their effort.

The last session of the symposium was to introduce the professional institutions of both Hong Kong and Dalian. Representatives from each professional institution introduced their institution around 10 minutes. The institutions included ASHRAE-HKC, CIBSE-HKB, HKIE-BSD, 大连市制冷学会 空调热泵专业委员会&大连市制冷学会专家学术委员会. After the introduction session, closing speeches were jointly held by both Hong Kong and Dalian representatives Ir. T M CHUNG and 叶金华 respectively.

ASHRAE Region XIII Chapters Regional Conference (CRC) – SINGAPORE STUDY TOUR 2010

By Ms. Chan So Chun Sue (student from HKU)

For further information, please visit "www.ashrae.org.hk/studytour/"

The Singapore Study Tour on Building Technology was held successfully from 23rd August to 29th August, 2010. It was jointly organized by five student branches namely CityU, IVE, HKUST, PolyU and HKU. 24 students from these institute/universities joined this tour.

The objectives of this tour were to enhance students' knowledge on building technologies and provide chance for HK students to attend ASHRAE Region XIII Chapters Regional Conference (CRC). This seven-day study tour was substantial, besides attending CRC technical seminar, students also visited different government bureaus in Singapore, Johnson Controls Singapore Office and participated in technical visits to Singapore District Cooling, BCA Academy Zero Energy Building, Marina Barrage and New Water Production Plant.

Apart from technical activities, the tour also included visit to National University of Singapore (NUS) and participation in ASHRAE Region XIII CRC Banquet Dinner. They provided a platform for HK students to have academic and cultural exchanges with students from Singapore and other countries. For the Banquet Dinner, there were a cultural performance session, students from each chapter conducted performance including traditional dancing, singing and drama. HK students danced with two cantons pop songs, all the guests sang and danced together with them and the atmosphere was great. Singapore chapter organized a student competition in CRC, which was an Artwork Competition with theme - "Global Warming - Save Our Planet". Students from HK chapter won the second runner-up in the competition.

In conclusion, students learnt the latest HVAC&R and building technologies from the technical seminar as well as technical visits. Besides, friendship was built up between students from HK and different chapters.

THE LEED WORKSHOP by ASHRAE HKC (MACAU SECTION)

新聞稿：綠色建築設計與LEED實施工作坊

由澳門工程師學會、美國冷凍空調工程師學會香港分會和澳門物業設施管理協會合辦，澳門大學、澳門工程施工主管協會和澳門公職工程技術人員協會支持的“綠色建築設計與LEED實施（Green Building Design & LEED Implementation）工作坊”，於2010年9月25日（星期六）澳門大學何賢會議中心HG03演講廳舉行，並由邱萬鴻博士擔任主講嘉賓。澳門能源發展辦公室山禮度主任代表李鑄新先生、澳門工程師學會梁文耀會長、美國冷凍空調工程師學會香港分會巫翔鷹會長、澳門物業設施管理協會馬志毅會長、澳門工程施工主管協會徐光中秘書長、澳門公職工程技術人員協會宋傑堯監事及澳門大學機電工程學系黃承發博士，亦出席是次工作坊的開幕儀式。主講的邱萬鴻博士為奧雅納董事，是北京鳥巢及水立方環保建築顧問，亦為諾基亞北京總部成為首座獲美國綠色建築協會金獎的中國綠色建築。

是次工作坊旨在提高認識、促進可持續發展，並分享如何建立和設計環保與節能建築，建立一個容許持續發展的基礎。而LEED是國際公認的綠色建築設計及估評系統，提供第三方認證並建成使用策略性指標在與改善綠色生活。LEED的開發是由美國綠色建築委員會(USGBC)、綠色樓宇業主和經營者提供了一個簡潔的框架，確定並採取實際和可衡量的綠色建築設計、施工、營運和維護的解決方案。與會者可透過此工作坊理解LEED綠色建築評估體系的概念、學習LEED實際的規劃要求和設計，而主講者分享成功獲得LEED認證的建築個案及經驗，令與會者瞭解如何獲取成為LEED認可專業資格及相關概念。

ASHRAE RESEARCH PROMOTION

With generous support and contribution, Research Promotion Committee of ASHRAE Hong Kong Chapter had got US\$8,205 donation which have met the yearly target (US\$7,622) in 2009-10. We achieved Full Circle Award, High Five, Goal and Challenge Certificates in 2009-10. Moreover, the donation of US\$5,000 from fundraising event of 2-evening technical workshop "Green Building Design & LEED implementation" held on 20 & 30 April 2010 let us award Silver Ribbon of Treasury Contributions. We deeply appreciate the contribution from Thomas Chan, Research Promotion Chair of year 2009-10 and Ir. Dr. Raymond Yau, Honorable Speaker of the Technical Workshop in order to obtain such fruitful results.

In addition, we would like to extend a special thank you to the following 2009-10 Honor Roll of Investors and contributors in the Hong Kong Chapter:- (Last names in alphabetical order)

2009-2010 Investor Honor Roll (Hong Kong Chapter) [Donation amount US\$100 or above]

This year 2010-11 we focus on the donation from ASHRAE RP Country Walk that held on 7 November 2010 and "COOL Hong Kong" book selling. Based on 2010-11 Research Contributions Summary issued by Research Promotion (Headquarter) on 27 October 2010, Hong Kong Chapter had raised US\$1,870 which was achieved 22.5% of Goal (US\$8,310) and also gained 465 points of PAOE (which was targeted as minimum 800 points and PAR 1050 points).

In order to complete our targeted goal, we would like to ask for your great support on donation for ASHRAE Research. The donation form is attached as a separate sheet for your action. Thank you!

ASHRAE represents the industry's leading HVAC&R professionals, working to make the world a better place to live.

Why be an ASHRAE Member?

Be a Member, you will benefit from all the resources ASHRAE provides as the world's leading organization of HVAC&R professionals. Our members come from consulting engineers, property owners and managers, designers, installers and maintenance and repair professionals whom all benefit from ASHRAE, with the following highlights:

- ▶ **The ASHRAE Handbook** - the indispensable, industry-wide resources of all HVAC&R professionals.
- ▶ **ASHRAE Journals** - this monthly resource is the most trusted technical magazine in the HVAC&R community.
- ▶ **Distinguished Lecture** - the quarterly professional lecture for innovation and state of art technology sharing by ASHRAE Qualified Distinguished Lecturer from all over the world.
- ▶ **Technical Workshop** - the practical professional workshop of HVAC&R's hot topics of industry.
- ▶ Access to more than 300 of the industry's leading technical publications.
- ▶ Access to online education, satellite broadcasts and professional

SPECIAL HIGHLIGHT 2ND DL TALK

Distinguished Lecturer Series – Desiccant Technologies for Dehumidification & Cooling

The second Distinguished Lecturer will be held on 30th November, 2010 at the Hong Kong Polytechnic University. Prof. Sanjeev Jain, PH.D. is the present chairman of Bureau of Indian Standards – Refrigeration and Air-conditioning Committee. He is the member of the editorial board of I Mech E Journal of Process Mechanical Engineering. He will cover the basic concepts, prospects and challenges in desiccant technology. After the seminar, there will have a practical experience sharing section by a local product provider.

ASHRAE Members / PolyU Staff / Full-time Students : Free
HKIE / CIBSE Members : HKD\$ 200
Other Non-Members: HKD\$ 300

For non-ASHRAE member, please send your application and cheque to "Mr. Michael Sung – 7/F One Kowloon, 1 Wang Yuen Street, Kowloon Bay, Hong Kong" for formal registration. Cheque shall be payable to "ASHRAE Hong Kong Chapter".
