IHEEM (HKB) / CIBSE (HKB) / ASHRAE (HKC) Joint Function
Technical Talk on Air Flow System for Hospital

Date & Time : 17 March 2009 (Tuesday)
5:45 p.m. to 6:00 pm Refreshment
6:00 p.m. to 7:00 p.m. Seminar

Venue : Basement Hall, Methodist Hall, 36 Hennessy Road, Wanchai, H.K.

Registration Fee: Free of charge

Details

Downward displacement flow system and upward displacement flow system are better in view of cross contamination when compare with the conventional mixing flow system.

Downward displacement flow system has been widely used in cleanroom and operating theatre. Upward displacement flow is now widely used in concert halls, theatres and offices. Mixing flow system is still the most commonly used system especially in Asia and tropical region. CFD Simulation is now a useful tool to facilitate designers and developers to visualize the performance of the system.

The seminar aims at providing update information for professional engineers to use the appropriate system for different application.

The speaker

Mr. Andre Gobel graduated in a University in Germany in the field of Mechanical Engineering and he started his career in Krantz since 1975. Mr. Gobel has 34 years of experience in the field of Air Distribution and participated in various international conferences related to air distribution and comfort. He is the Head of Production Group Air Distribution Systems in Krantz Component and a member of the book committee of standard performance for guidelines for indoor air technical plants in Germany.

The speaker will present CFD findings and discuss various air distribution systems available in the market and recommend the suitable system for hospital.

Registration

For registration, please complete and fax the registration form to 8103 3361 or email it to achow@intelligent-net.com by 10 March 2009 (Tuesday). Successful applicant will be informed individually. Numbers of participants are limited to **200**. Allocation will be on first come first served basis.

REGISTRATION FORM

Registration for Technical Talk (17 March 2009, Tuesday) – Air Flow System for Hospital

Please fax this form to Mr. Alex Chow (Fax No: 8103 3361) or email it to achow@intelligent-net.com

Name:		Telephone No.
