

<u>Joint Technical Seminar on</u>

"Practical Ways of Achieving Sustainable Building Services Designs for Government Office Buildings"

Details

Date : 24 March 2015 (Tuesday) Time : 6:30pm (Registration), 6:45pm -8:00pm Venue : Seminar Room HKIE Headquarters, 9/F Island Beverley, No. 1 Great George Street, Causeway Bay, HK.

Programme Highlight:

This seminar is a joint activity among HKIE-BSD, CIBSE HK Branch and ASHRAE-HKC.

Sustainable development has been a common goal of the construction industry in Hong Kong. This presentation will share with the audiences on some of government office building project experience of achieving sustainable building services designs in the areas of energy saving, waste reduction, water conservation, improvement of indoor air quality and use of renewable energy. Reference will be made to the relevant experience gained from the newly constructed Trade and Industry Tower in the Kai Tak Development Area.

<u>Speaker</u>

Ir Patrick Kwan, Senior Building Services Engineer, Architectural Services Department Ir William Mak, Electrical and Mechanical Engineer, Architectural Services Department
